Mr JAG Duval

WHEREAS THE GREATEST CARE HAS BEEN TAKEN IN THE COMPILATION OF THE CONTENTS OF THIS PUBLICATION, THE DEPARTMENT OF MINERALS AND ENERGY DOES NOT HOLD ITSELF RESPONSIBLE FOR ANY ERRORS OR OMISSIONS.

FOREWORD

Due to several recent changes in the South African Dimension stone industry, particularly with regard to ownership, it was deemed necessary to update this directory of dimension stone producers in South Africa. All types of dimension stone that are currently produced in the country are listed. Granite is the most economically important stone produced, followed by slate.

Data contained in this edition were supplied by the various mining, processing and marketing companies listed, to whom due acknowledgement is made. Where available e-mail and web site addresses are included. Further details relating to South Africa's industrial minerals are given in the Bureau's annual review of the South African mineral industry (SAMI).

We hope that this directory will once again prove itself valuable to the producers, processors, marketers and consumers of South Africa's dimension stone.

N. Van Averbeke

August 2005
